ABOUT CHARUTAR VIDHYA MANDAL

Charutar Vidya Mandal was established in the year 1945 as a charitable trust with a prime objective of rural development through education to bring about the social awakening, social upliftment and enrichment. The first fifty years of CVM coincided more or less with the second half of the twentieth century. Judged by any yardstick, these first fifty years of CVM have been immensely successful. The vision, dedication and commitment of the founders of CVM and its subsequent leaders can be seen clearly today in the results of their tireless efforts.

ABOUT B & B INSTITUTE OF TECHNOLOGY

Bhailalbhai & Bhikhabhai Institute of Technology (Polytechnic) is a grant-in-aid Polytechnic Institute managed by Charutar Vidya Mandal, Vallabh Vidyanagar. It was established in August 1958 with the intake capacity of 60 each in conventional programme like Civil, Mechanical & Electrical Engineering. Later on institute started new Diploma Programme in Electronics & Information Technology. It endeavors young minds into exceptional wisdom and remarkable persons & moulds to be ardent and ambitious to rise in the upcoming competition.

ABOUT THE PROGRAMME:

Sustainable energy is a form of energy that meets our today's demand of energy without putting them in danger of getting expired or depleted and can be used over and over again. Sustainable energy should be widely encouraged as it does not cause any harm to the environment and is available widely free of cost. All renewable energy sources like solar, wind, geothermal, hydropower and ocean energy are sustainable as they are stable and available in plenty. Keeping in the mind about global energy crisis and inevitable need of sustainable energy, B & B Institute of Technology which is the one of the oldest polytechnics in the state of Gujarat and managed by Charutar Vidya Mandal is organizing one-week short term training program on SUSTAINABLE ENERGY: RECENT TRENDS & APPLICATION. The aim of this STTP is not only to create awareness about sustainable energy but explore new areas and possibilities in ever-fast growing field of sustainable energy with inclusion of latest development. The main objective is to provide a platform for discussion, to share knowledge about advances in the field etc.
